I live here in Stayton. I am satisfied with the service and current cost. However, Republic is no longer providing information regarding blue cart schedule or holiday changes. At least they have not provided this in my neighborhood. I am aware this is likely available online. However, until the internet and the hardware needed to access it becomes free of charge, companies should provide alternate means of communicating information.
Thank you

Republic Services are the worst, they fail to pick up at least one a month but still charge for the full month have had to call them so many times and they never make them come back and get it or refund for it

Subject: Republic Services Rate Hike - Just Say No!
Date: Monday, July 19, 2021 3:54:07 PM

Dear Mayor, Council Members, and City Staff,

It is my understanding Republic Services has proposed a rate hike of approximately 10.3%. This is a terrible time in the lives of many of our citizens and businesses due to loss of income during the COVID-19 shut down, and this could be the a budget buster in many of these families. Yes, I understand Republic Services has costs, but they should be able to weather at least another year without this increase since they were not one of the businesses that had to close their doors or drastically reduce their hours. I also do not believe we necessarily need larger yard debris bins as a consolation prize for such an outrageous increase in fees.

Sincerely,
Marcy Crenshaw
